Some requirements need to be met when creating an account:

- The **e-mail address must be valid**. ConfTool does several tests to ensure that you enter a valid address to avoid typos. Your e-mail address will be used to contact you about the event, the submission process and the participant registration process.
- The **user name** has to consist of at least 2 characters, is case-sensitive and must be unique, i.e., no other ConfTool user must already be registered with the same name.
- The **password** has to consist of at least 5 characters, is case-sensitive and has to contain at least one Latin character (a-z) and one number (0-9).
- The password must **not be simplistic**, for instance it must not be equal to your name.

If you experience problems while creating a user account, please contact the conference organizers by e-mail ([info@isam-hamburg.com](mailto:info@isam-hamburg.com)) and include all required data. The conference organizers will be able to assist you.

After completing the Web form, a confirmation e-mail will be sent to you with your account details. Please provide a valid name, address, and email address.

The user account can be used for multiple submissions and for participant registration.

## Login to the ConfTool System

After having obtained a user account, you can log in with your username and password under "Registered Users". If you have forgotten your password, a new one can be obtained through the "Forgotten your password?" link.

## Register for Conference Participation

For the event, participant registration is also handled via the ConfTool system. After login, click on "Register as Participant" in the main menu to start the registration process. Registration for the conference and the conference party (gala dinner) is now open. Further social activities will soon also be bookable via this page.
